An aerial photograph of a parking lot where several cars are parked under a canopy of solar panels. The panels are arranged in long, parallel rows, supported by thin white poles. The ground is paved with asphalt and has white parking lines. There are some green trees and bushes scattered around the parking area. In the foreground, there is a large, stylized graphic of a sun and a solar panel. The sun is bright yellow with orange rays, and the solar panel is blue with a white grid pattern. The overall scene is bright and sunny, suggesting a clear day.
